

INTERPRETING ASPECTS IN A BIRTH CHART USING KEYWORDS

WORKBOOK

By G. E. Carlin

Introduction

In astrology, delineation is defined as explaining the planetary positions in a chart so they can be used to interpret the chart in which we can use its information to explain the effects and potential outcomes of their positions on our past, present, and current lives. Delineation is often referred to as “*reading the chart*” and is where the true art of astrology lies. And as with any skill or ability it must be developed over time and it require a tremendous amount of practice. However, it is important that we start the process with a simple and effective method such as a *Keyword System* that was introduced by Max Heindel in his book, *The Message of the Stars*, and then developed into a step-by-step method with examples in the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book by J. D. and then further developed by Jean de Galzain in his many workshops.

The scope of this book is to address the delineation of the Aspects of the Birth Chart for all of the Planets, the Ascendant (ASC), the Midheaven (MC), and the Fortune. Although information for the Aspects is provided for the Black Moon Lilith (Lilith), the Nodes, Descendant (DSC), *Imum Coeli* (IC), and the Vertex they will *not* be addressed in this volume and are indicated in an *italics* font in the Answer Keys for each celebrity Birth Chart. As Chiron is a rather recent addition to our celestial bodies there is no information regarding the Key-Words for the Aspects in the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book. However, a set of the Basic, Positive, and Negative Key-Words has been included in this Workbook.

Each celebrity in the Workbook includes a Birth Chart, a *Planet to Planet Aspect Table*, an *Ascendant Aspect Table*, a *Midheaven Aspect Table*, and a *Fortune Aspects Table* with corresponding charts to complete and fill in with their Key-Words. The first ten celebrity Birth Charts provide both the two planets and their Aspect in their respective *Planet to Planet Aspect Tables*. However, starting from the eleventh Birth Chart onward you will be expected to identify both, the two planets and their aspect, when provided only with: (1) the two planets without the aspect, (2) one planet and the aspect, (3) one planet, (4) the aspect, and finally (5) only provided with the Birth Chart. If you are unfamiliar with a given celebrity you may find it helpful to read a short biography of their life so you can confirm where and how the given aspect relates to their life.

Although the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book provides a set of Keywords for each Planet, Sign, and House you may want to add to the list or revise it with words you are more “*comfortable*” with (i.e., Dogmatism is not a word I commonly use so I changed it to: *Stubborn*). In addition, the Key-Words provided for the Aspects were not specific so this Workbook provides a list of Basic, Positive, and Negative Key-Words for each of the five main Aspects (*Conjunction, Sextile, Trine, Square, and Opposition*). However, you may adapt the list as you feel appropriate.

Hopefully, this Workbook allow you to develop a basic understanding of the *Alternative Key-Word Method* of delineation which you can further expand upon.

Aspects in Astrology

In simple terms, aspects reflect the energy in your birth chart through the angular relationships of the planets in your chart. In terms of interpreting a birth chart, the aspects produced by the different planets with each other provides one of the most essential tools for the interpretation of a person's entire chart. It is not enough to only consider the qualities of each planet by themselves as other planets in the chart are going to affect the expression of that planet's qualities and energies.

In looking at the planets in our birth charts, some planets can be connected to other planets with lines called aspect lines (which can be seen in the center of the birth chart). These aspect lines between the planets form specific geometric angles, of which the five major aspects are 0° (*Conjunction*), 60° (*Sextile*), 90° (*Square*), 120° (*Trine*), and 180° (*Opposition*).

Conjunction: Two planets are generally in the same sign and house so that together their energies are merged, focused together, and intensified to act as one for “*better or worse*”, therefore, they are considered neutral in their impact.

Sextile: Two planets are two zodiac signs apart usually in complementary elements so they can support each other and allow their energies to easily flow so as to be harmonious and lead to growth. Sextiles are like “*open doors*” for our opportunities to bring goodness and luck into our lives.

Square: Two planets are three zodiac signs apart which does not place them in compatible elements so that the energies are pulled in different directions often making things quite challenging requiring compromise. Although challenging they are often necessary to address difficulties for our transformation.

Trine: Two planets are four zodiac signs apart and therefore in the same element so that blessings and opportunities are abundant. Energies easily flow producing harmony with very little effort so bring our successes. Trines are stronger than sextiles and can make things so easy we must be careful not to take things for granted. They provide an indication of our natural abilities, strengths, and talents but we still need to put in the work to reap their full benefits.

Opposition: Two planets are six zodiac signs apart and across the sky from each other as “*zodiac polarities*”. In the process of balancing their energies it can produce conflict, tension, drama, and power struggles (tug of war) requiring a need for balance, in which we are self-aware and take the time to see all sides of the story.

Therefore, an aspect in astrology describes how the different planets are interacting with each other in positive, negative, or neutral ways. The table below indicates the neutral aspect (0) of conjunction, the positive or soft aspects (+) of sextile and trine, and the negative or hard aspects (-) of square and opposition as well as their corresponding examples of potential Key-Words.

ASPECT KEYWORDS	
Conjunction (0)	
“Keywords of the conjunction are the same as those for the trine or the square depending respectively on whether the conjunction is harmonious or inharmonious” Keywords examples include: <i>blending, mixing, unity, concentration, focus, intensity, connection, reinforcement, beginnings, impact, new cycles, fusion, initiations, pioneer, consolidate, strengthen, empower, emphasize, prominence, consolidation, germination, emphasis, stimulate, awaken</i>	
Sextile (+)	
“Verbs which express reinforcement, assistance, ease and cooperation” Keywords examples include: <i>supportive, opportunity, harmonious, growth, cooperative, friendly, pleasant, choice, easy, helpful, balanced, opportunity, potential, relaxed, simple, comfortable, healing, positive change, emotional learning, assimilation, ability, understanding</i>	
Trine (+)	
“Verbs which express reinforcement, assistance, ease and cooperation” Keywords examples include: <i>ease, enthusiastic, intuition, beneficial, harmony, opportunity, rewarding, expansive, visionary, optimistic, involves talent, expressing joy, having luck, experiencing growth, being merciful, overindulgent, expanding power, flow, stability, peace, tranquility, abundance, synchronicities, natural gifts, perfection, faith, risk taking</i>	
Square (-)	
“Verbs which express obstruction, inharmony, strife, struggle or detraction.” Keywords examples include: <i>conflict, struggle, confusion, confrontation, challenge, obstacle, impasse, friction, tension, restlessness, impulsive, crisis, disorder, frustration, stress, antagonism, action, development, use of energy, competitiveness, defiance, pain</i>	
Opposition (-)	
“The keywords of the opposition in the case of the average person are similar to those of the square” Keywords examples include: <i>pulled apart, polarity, confrontation, conflict, pressure, tension, lack of cooperation, separation, challenging, compromise, awareness, relationships, repression, crisis, consciousness change</i>	

Delineation of the Birth Chart

In the book *the Message of the Stars*, Max Heindel has a short chapter on “*The Doctrine of Delineation in a Nutshell*” (pp. 405-408) so that a student of astrology can begin to make “*general readings*” from a birth chart using a system of keywords to understand the aspects of each planet in a quick, simple manner. Using the Keyword System, in which the keywords are “*given in a succinct manner [and state] the quintessence of the characteristics conferred by each planet according to whether it is well or ill-aspected.*”

To assist the reader, Heindel concluded the chapter with a “*Table of Planetary Key- Words*” that provide the Key-Words for different planets with specific aspects. For example:

Planet	Aspects	Keywords
Sun	Sextile, Trine	The vital, venturesome, dignified and authoritative Sun.
Venus	Square, Opposition	The dissolute, sensual, vulgar, slothful, loud, and Lazy Venus

In the Rosicrucian Fellowship book, *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny*, by J. D. the Key-Word method is more thoroughly mapped out to provide Key-Words for all of the Signs, Houses, Planets, and Aspects in a birth chart. It describes the delineation method as utilizing “*the keywords of the planets, signs, and houses to form key-phrases, key-sentences and key-paragraphs, then the final summing up of these to arrive at a composite judgment.*” The free .pdf of the *Astrological Keyword System* book can be downloaded at at:

https://www.rosicrucian.com/pdf_plaza/Astrological%20Keywords.pdf

Yet, it should be noted that even though the keywords will produce a good delineation, the interpretation process still requires the reader to further elaborate on their meaning using their imagination and creativity. As this is just a short introduction to this method, Max Heindel advises the reader to study the horoscopes that are provided each month in the *Rays from the Rose Cross* magazine so additional instruction can be made available.

Steps in the Key-Word Method of Delineation

The steps in this “*abbreviated method*” are based upon the **Alternative Method** presented in the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny*, and then further mapped out by Jean de Galzain in his workshops at the Summer and Winter Conferences of the Rosicrucian Fellowship.

Planet to Planet Aspects

Step #1

Complete the *Table of Signs and Houses* for the birth chart under consideration.

Step #2

Using the Information from the *Table of Signs and Houses* to complete the *Table of Planet to Planet Aspects*.

***Note:** In completing the *Table of Planet to Planet Aspects*:

Examples 1-10 provides the name of the two planets and their aspect

Examples 11-15 provides the name of the two planets and you will need to determine the corresponding aspects

Examples 16-20 provides the name of one planet and the aspect for which you will need to determine the corresponding planet

Examples 21-25 provides the name of one planet for which you will need to determine the second planet and its corresponding aspect

Examples 26-30 provides the name of the aspect and you will need to determine the corresponding two planets for that aspect

Examples 31-32 require you to identify all aspects with their corresponding planets

Step #3

Using the first aspect listed in the *Table of Planet to Planet Aspects* to fill out the “ANSWERS” for corresponding table for the Keywords. And indicate if the aspect is neutral (0), positive (+), or negative (-). For example,

**Aspect: Moon in Sagittarius in the 6th House Square to
Mars in Pisces in the 10th House (Table Given)**

1-7	Answer	Key Word
1. Sign		
2. Planet	<i>Moon</i>	
3. House		
4. Aspect	<i>Square</i>	
5. House		
6. Planet	<i>Mars</i>	
7. Sign		
Refined Key Word Sentence:		

**Aspect: Moon in Sagittarius in the 6th House Square to
Mars in Pisces in the 10th House (Answer filled in)**

1-7	Answer	Key Word
1. Sign	<i>Sagittarius</i>	
2. Planet	<i>Moon</i>	
3. House	<i>6</i>	
4. Aspect	<i>Square (-)</i>	
5. House	<i>10</i>	
6. Planet	<i>Mars</i>	
7. Sign	<i>Pisces</i>	
Refined Key Word Sentence:		

Step # 4

Using the Key-Words from *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny*, select a Key-Word for the Signs and Planets based upon the Positive or Negative nature of the Aspect. In this example, the aspect is Square which has a negative (Neg) nature. Therefore, you may select a Keyword from the Negative (Neg) selection or the Basic selection. (Had it been Positive you would have selected your Key-Word from the Positive or Basic selection)

For example, in 1. Sign **Sagittarius**

Basic Key-Words: Aspiration, idealism, orthodox religion, law, philosophy.

Neg Key-Words: Over-confidence, dogmatism (arrogant, *stubborn*, etc.), fanaticism.

In 2. Planet: **Moon**

Basic Key-Words: Personality, imagination, instinctual mind, emotions, change, fecundation, the public, women.

Neg Key Words: Negativeness, visionariness, dreaminess, indecision, vacillation, frivolity, fretfulness, *procrastination*, incorrect impressions.

1-7	Answer	Key Word
1. Sign	<i>Sagittarius</i>	Stubborn
2. Planet	<i>Moon</i>	Procrastination
3. House	<i>6</i>	
4. Aspect	<i>Square (-)</i>	
5. House	<i>10</i>	
6. Planet	<i>Mars</i>	Temper
7. Sign	<i>Pisces</i>	Lack of confidence
Refined Key Word Sentence:		

Step #5

Select a Key-Word for each House from *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book. The House Key-Word selection is *not* based upon the nature (+, -, 0) of the Aspect.

For example, in 3. House: **6**

6th: **Service**, relations with employers and employees, health and sickness.

In 5. House: **10**

10th: **Profession**, standing in community, the father.

1-7	Answer	Key Word
1. Sign	<i>Sagittarius</i>	Stubborn
2. Planet	<i>Moon</i>	Procrastination
3. House	6	Service
4. Aspect	<i>Square (-)</i>	
5. House	10	Profession
6. Planet	<i>Mars</i>	Temper
7. Sign	<i>Pisces</i>	Lack of confidence
Refined Key Word Sentence:		

Step #6

Select a Key-Word for the Aspect. As the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book provides only a general description for the Key-Words, you may also refer to the *Table of ASPECT KEYWORDS* specific list of keywords previously cited to select a Key-Word.

For example, 4. Aspect: **Square (-)**

Keywords examples include: conflict, **struggle**, confusion, confrontation, challenge, obstacle, impasse, friction, tension, restlessness, impulsive, crisis, disorder, frustration, stress, antagonism, action, development, use of energy, competitiveness, defiance, pain

1-7	Answer	Key Word
1. Sign	<i>Sagittarius</i>	Stubborn
2. Planet	<i>Moon</i>	Procrastination
3. House	6	Service
4. Aspect	<i>Square (-)</i>	Struggle
5. House	10	Profession
6. Planet	<i>Mars</i>	Temper
7. Sign	<i>Pisces</i>	Lack of confidence
Refined Key Word Sentence:		

Step #7

Use the Keywords (1-7) to produce a “***Refined Keyword Sentence***”. Generally, the Key-Word for the Aspect will be written as verb to connect the information from the first planet in the aspect to the second planet in the aspect. You can write your sentence from the Key-Words in either direction, from 1-7 or 7-1.

1-7	Answer	Key Word
1. Sign	<i>Sagittarius</i>	Stubborn
2. Planet	<i>Moon</i>	Procrastination
3. House	<i>6</i>	Service
4. Aspect	<i>Square (-)</i>	Struggle
5. House	<i>10</i>	Profession
6. Planet	<i>Mars</i>	Temper
7. Sign	<i>Pisces</i>	Lack of confidence
Refined Key Word Sentence: <i>When a person is stubborn, they often procrastinate in their efforts to serve others as they only struggle to maintain their professionalism due to a quick temper and a lack of confidence in their abilities.</i>

However, over time you will learn to better structure the sentences so they will not only become smoother but also better convey the intended meaning. Therefore, you can work with the all samples provided to better state the Refined Key Word Sentences.

Selecting Key-Words

The selection of the Key-words for delineation is based upon your intuition, impressions, and perceptions of the person whose chart you are working with. Therefore, “*by using different keywords several such sentences may be made, each indicating some possible aspect or phase of the life.*” See the alternative version of **Sun in Capricorn in 7th House SEXTILE to Saturn in Scorpio in the 5th House** below:

Aspects to the Ascendant

The Ascendant or Rising Sign is the sign at the time of our birth that is rising on the Eastern horizon, our “*first breath*”. The Ascendant represents how we appear to other people in terms of our physical bodies, our ego, and our general health and how we are able to live and adapt to our environment. It can be thought of as our identity expressed in our personality, as the Ascendant helps to shape the first impression that others have of us, our attitude towards the world, and how we will deal with the many new experiences we will encounter. In terms of our birth chart, the Ascendant will always be found in the First House.

Each Rising Sign (Ascendant) has a Ruling Planet (chart ruler) which has a powerful effect in your birth chart. A few of the traditional ruling planets have changed for a few planets in modern astrology when Uranus, Neptune, and Pluto, were discovered. Thus, in modern astrology the Ruling Planets for the twelve signs are:

Aries: Mars
Taurus: Venus
Gemini: Mercury

Libra: Venus
Scorpio: Pluto (Mars – Traditional)
Sagittarius: Jupiter

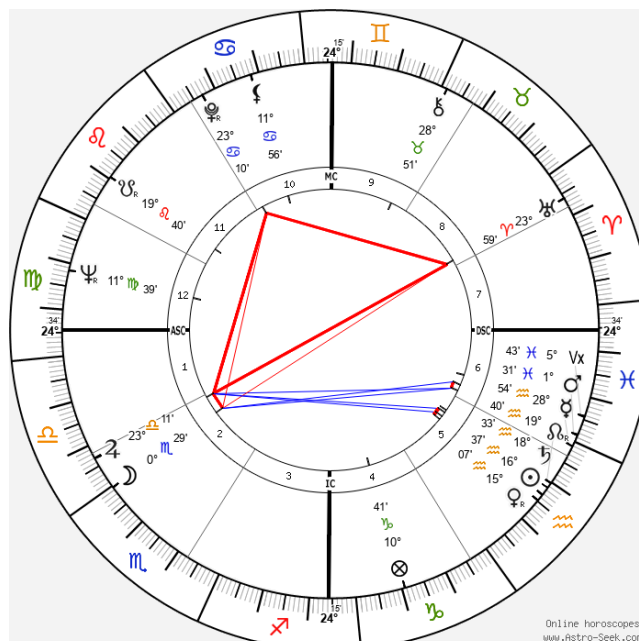

Cancer: The Moon
Leo: The Moon
Virgo: Mercury

Capricorn: Saturn
Aquarius: Uranus (Saturn – Traditional)
Pisces: Neptune (Jupiter – Traditional)

The Ruler of the Ascendant helps to add much additional information about yourself in terms of your personality and the energy that you project from yourself that touches others and the world at large. Knowing the Ruler of the Ascendant would be analogous to the picture that that has been colored in from a black and white drawing in a coloring book. And as a coloring book has a theme (i.e., Bible stories), the Ascendant speaks to the themes that will repeat themselves during the course of your life. Yet, in considering the Ascendant it is also important to take into consideration its Sign, its aspects to other planets, and which House the Ruling Planet is found in the birth chart.

Aspects to the Midheaven

The Midheaven or Medium Coeli (MC) identifies at the time of birth the highest point in the sky. Generally found at the cusp of the tenth house but it can also be found in the ninth and eleventh house. It represents the goals, ambitions, sense of responsibility, and higher aspirations you have for your life, your reputation and status, and how you will interact authority. It also gives clues to your ideal profession and how successful you will be.

Ultimately, the Midheaven gives an idea of how one will “*make their mark upon the world*” in terms of what legacy they will leave the world within terms of your career, reputation, and your success in your higher aspirations to achieve greatness in your life.

For the home run king in baseball, Hank Aaron, his Midheaven is found in Gemini in the tenth house.

Aspects to the Fortune

The Fortune (Lot of Fortune or Pars Fortuna) is calculated from the position of the Sun, Moon, and Ascendant in your birth chart and it tells us where we can expect to find the greatest joy and happiness in our lives. For some that happiness will come through their luck, abundance of what they want or need, and even discovering hidden talents. The Fortune can be activated by tapping into the energy of sign in which it is located as well as through its aspects. In essence it's almost like a buried treasure within your birth chart, that identifies where the energy of the Ascendant, Sun, and Moon are perfectly blended to ensure that your life provides you with the richest opportunities and the ability to manifest blessings and gifts that are available to you, your "*cosmic sweet spot*".

Chiron

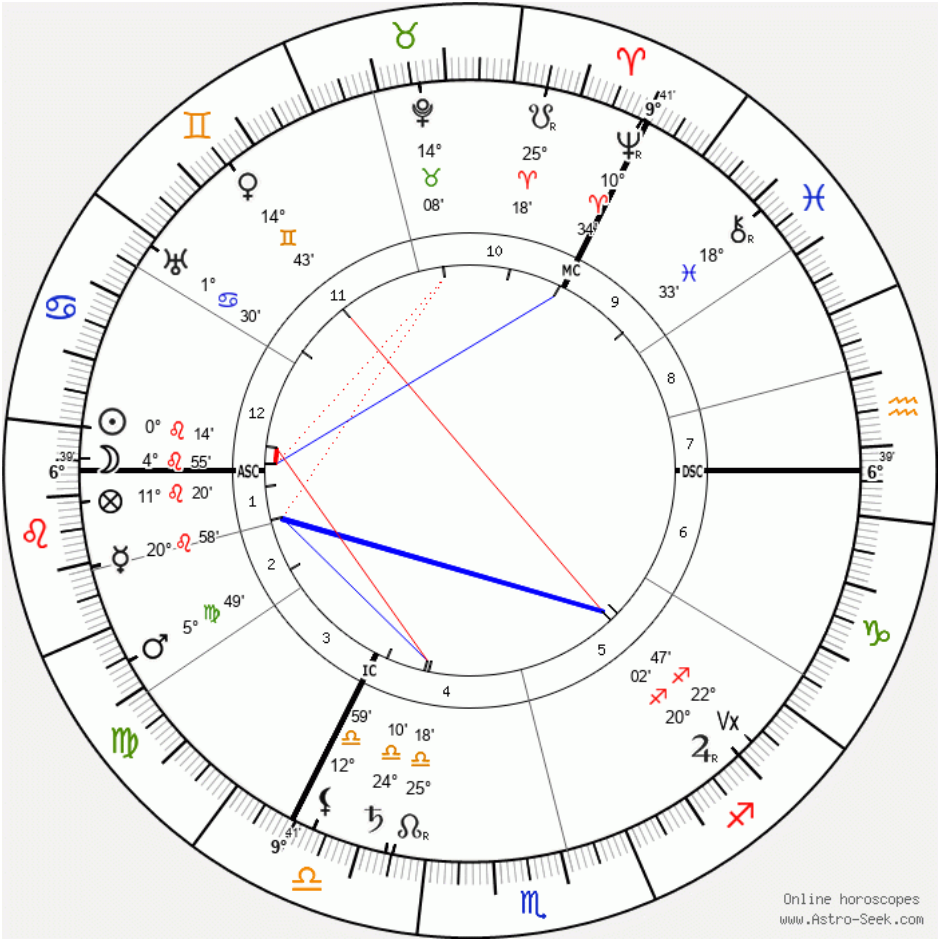

Chiron is a small minor planet that is found orbiting the Sun between Saturn and Uranus with an eccentric fifty-year orbit. It is surrounded by a ring system and in reality, is actually classified in a relatively new group of celestial objects called *Centaurs*. In some ways it is considered a hybrid of an asteroid and a comet as it has characteristics of both. It is named after the centaur Chiron from Greek mythology who was considered the wisest and noblest of the centaurs with unrivaled medical skills who taught and mentored many of the Gods and their offspring, many well-known heroes (i.e., Asclepius, Achilles and Jason), and after being wounded by Hercules sacrificed his immortality so that Prometheus could be released and he was then placed within the stars as the constellation *Centaurus*.

In astrology, Chiron is the Wounded Healer and its position in the birth chart indicates where one has been most wounded in their life. Yet, it also offers the opportunity to learn how to heal yourself and others. It helps us to understand our abilities and talents so we may understand how to grow spiritually and provide service to our brothers in need so they may find healing in their lives. Ultimately, it offers us the knowledge and wisdom that is needed to transform the painful experiences from our lives into a new source of strength and higher consciousness. Chiron teaches us how working through our pain and understanding our vulnerabilities and insecurities leads to wholeness with the ability to embrace ourselves with loving kindness knowing that we are all children of God.

As it was only recently discovered in 1977 it was not included as part of the *ASTROLOGICAL KEYWORD SYSTEM of Analyzing Character and Destiny* book. Therefore, table of the Basic, Positive, and Negative Key-Words for Chiron are provided in the table below so that you may use them in your delineations involving the aspects of Chiron.
